# Who We Are ?

Tradesecc AMC India Private Limited, an Indian company collaboration with the Italian leading smart intrusion alarm system manufacturer company AMC Elettronica was founded in 1974, has completed 47+ successful years of manufacturing excellence, and offers a complete range of smart intrusion alarm solutions globally. Today AMC Elettronica has a well-established distribution in over 58+ countries globally with 60+ high-end EN 50131 Certified wired & wireless products with high-quality designs.

Our aim is to keep your premises safer and more secure. We have over 5 decades of manufacturing experience in EN-graded smart intrusion alarm control panels, detectors, sirens, and dialers. We are undertaking R&D activities focused on innovations to develop new products, improve existing ones, or add features. In coordination with our distribution partners, we provide smart intrusion alarm security solutions for residences, banks, warehouses, retail chains, showrooms, factories, museums, defense, and others.

## High Quality Assurance

All Smart Intrusion Alarm system products are certified by the Global CE & En50131 approved, with the ISO9001:ISO14001 rules of quality standard.

# AMC Plus

AMC Plus is the new application for managing the control panel via smart phone and tablet, available for Apple and Android.

- Easy to use
- No need setting
- Bandwidth consumption
- Video verification system
- Increased speed and decreased
- Updated and improved graphics
- Importing system maps for each area and group
- Possibility of having different users with different functions

## Features

- Events log
- PUSH notifications
- HTTPS (SSL4) data protection
- Different users with different priority
- ARM and DISARM in all combinations
- Bypass of all zones ready and not ready
- Multiple installed control panel with 1 APP
- Enable and disable all programmed outputs
- Operation via CLOUD no need configurations
- Guaranteed operation with GPRS - 4G
- Different sound notification for different events
- Possibility to connect in live view with sensor camera
- App and maps can work in portrait and in landscape
- Importing and changing ICONS and PHOTO of zones
- Importing graphics maps of building where the system is installed
- Video verification (by possibility to download pre and post alarm videos)

Manageable by App with 4G module

# RESIDENCE SOLUTION

Our aim is to keep your premises safer and more secure. It is essential for residential societies to upgrade their security system and go beyond human guards. Our smart intrusion alarm system provides more safety and security, offering complete protection from intruders. This system will inform the concerned persons, the police, or other authorities via call and SMS when an intruder is detected.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

Manageable By

## BASIC SOLUTION

Control Panel	LARIO
Magnetic Contact	CM 800 Mini
Indoor Sensor	IF800/P
Outdoor Sensor	Soutdoor 800
Glass Break Sensor	GS 800
Sensor (Wi-Fi Camera)	IFV 800
Smoke Detector	SF 800
Indoor Siren	PZ 800

# BANKING SOLUTION

Our smart intrusion alarm system increases the security of banks immensely. No matter if the branch is open or closed, our alert-based monitoring ensures that any intrusions are immediately detected and call and SMS to concerned bank officials as well as the police, thus deterring any criminals away from the bank premises. Also, provide day-to-day health status of the alarm control pane to bank managers over mobile via calls and SMS or through the application.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

## BASIC SOLUTION

Control Panel	X412V
Door Sensor	SS14
Glass Break Sensor	GS1
Indoor Sensor	19/P
Indoor Sensor	Mouse 02/P
Indoor Sensor	DT1 AM
Shutter Sensor	MMS
Outdoor Siren	Iside
Panic Switch	EPS

# WAREHOUSE SOLUTION

## Pet immunity

ProLine detectors are pet immune up to 15 Kg, thanks to the new lens design combined with the digital analysis system.

Our smart intrusion alarm system is a must-have to ensure the security of warehouses. Traditional security solutions have some limitations and can be easily bypassed. This smart intrusion alarm system is highly recommended as it will alert you and other concerned officials of any intrusion in the warehouse and deter criminals away from your warehouse.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

Manageable By

## BASIC SOLUTION

Control Panel	X412V
Door Sensor	SS14
Glass Break Sensor	GS1
Indoor Sensor	Mouse 02/P
Outdoor Sensor	Soutdoor/L
Shutter Sensor	MMS
Outdoor Siren	Iside

# RETAIL CHAIN SOLUTION

Our smart intrusion alarm system is a must-have to ensure retail shop security. Traditional security solutions have some limitations and can be easily bypassed. This smart intrusion alarm system is highly recommended as it will alert you and other concerned officials of any intrusion in the shop and deter criminals away from your premises.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

Manageable By

## BASIC SOLUTION

Control Panel	X824V
Door Sensor	SS14
Glass Break Sensor	GS1
Indoor Sensor	Mouse 02/P
Indoor Sensor	DT1 AM
Shutter Sensor	MMS
Outdoor Siren	Iside
Panic Switch	EPS

# SHOWROOM SOLUTION

Our smart intrusion alarm system provides more safety and security, offering complete protection from intruders. When you lock up your showroom at the end of the day, there's often that underlying fear of a chance of burglary. This smart intrusion alarm system is highly recommended as it will alert you and other concerned officials of any intrusion in the showroom and deter criminals away from your showroom.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

Manageable By

## BASIC SOLUTION

Control Panel	X412V
Door Sensor	SS14
Glass Break Sensor	GS1
Indoor Sensor	Mouse 02/P
Indoor Sensor	DT1 AM
Shutter Sensor	MMS
Indoor Siren	PZ2
Outdoor Siren	Iside
Panic Switch	EPS

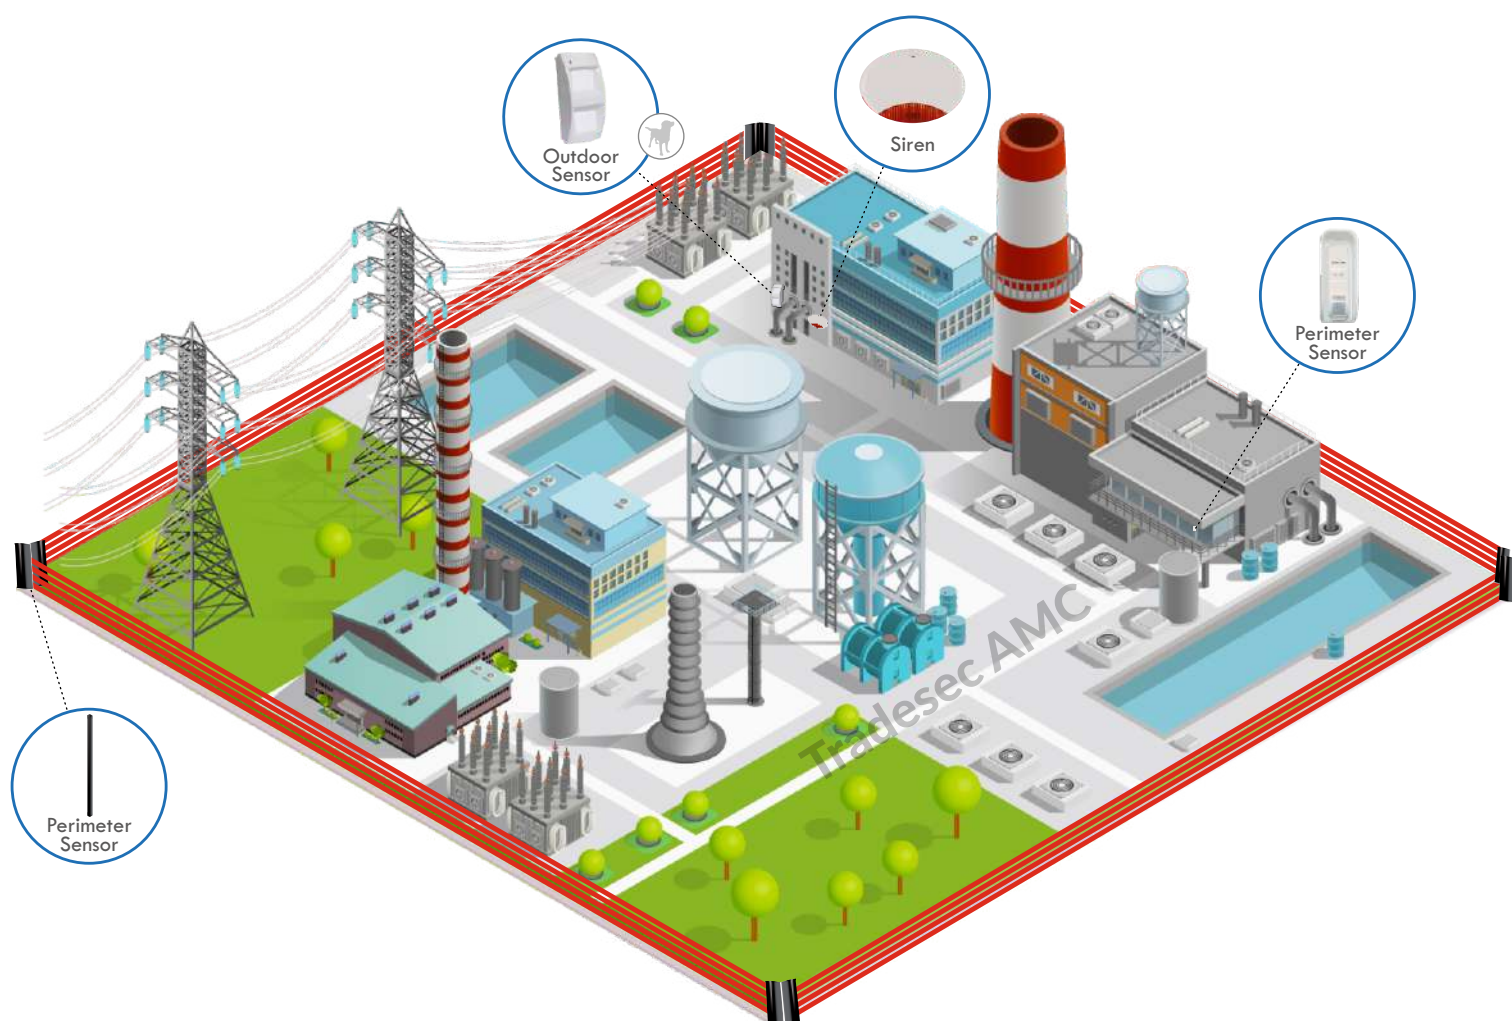

# FACTORY SOLUTION

Our smart intrusion alarm system protects the parameter of the industrial premises. It consists of beam detectors placed along the boundary and raises an alarm if intruders try to jump inside the office premises, which intruders away if motion is detected within their range and call concerned authorities and law enforcement agencies. The purpose of this system is to protect the factory from burglary and intrusion.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

Manageable By

## BASIC SOLUTION

Control Panel	X824V
Outdoor Sensor	Sandor (Dual/Quad/ESA)
Outdoor Sensor	Soutdoor/L
Outdoor Sensor	NAT
Outdoor Siren	Iside

# MUSEUM SOLUTION

Our smart intrusion alarm system provides more safety and security, offering complete protection from intruders. When you lock up a museum at the end of the day, there's often that underlying fear of a chance of burglary. Deploying our system is highly recommended as it will alert you and other concerned officials of any shop intrusion and deter criminals from the museum.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

## BASIC SOLUTION

Control Panel	X824V
Mini Magnetic	MMD
Glass Break Sensor	GS1
Indoor Sensor	Mouse 02/P
Indoor Sensor	DT1 AM
Shutter Sensor	MMS
Indoor Siren	PZ2

# DEFENSE SOLUTION

Our smart intrusion alarm system protects the parameter of the defense-sensitive area. It consists of Beam Detectors placed along the boundary and raise an alarm if intruders try to jump inside your premises, which intruders away if motion is detected within their range and call concerned authorities and law enforcement agencies. The purpose of this system is to protect the factory from burglary and intrusion.

We have an EN-Approved product range with high-quality designs of wired/wireless smart control panels with ABS cases, Dual-technology microwave & Anti-masking sensors, Glass Break sensors, door magnetic contacts, Piezoelectric UV-protected self-powered sirens, and dialers. Entire wireless products have ranges of up to 1 km.

Manageable By

## BASIC SOLUTION

Control Panel	X824V
Outdoor Sensor	ALEX 160/250
Outdoor Sensor	Soutdoor/L
Outdoor Sensor	NAT
Shutter Sensor	MMS
Outdoor Siren	Iside
